Issue Report on Testing Broadcasting Studio

No.	Date Reported	Issue Found	Evidence	Issue Type	Jira Ticket No. and Status	Solution (for developer side)	Date Resolved (developer side)	Date Received for re-testing (for Software Tester)	Actual Result (Verification/ Passed/ Failed)
1	25-October-2023	I found it needs a channel so I can go through adding output to a specific platform, unfortunately an error occurred says “something went wrong” when I created a new channel.		Bug	TICKETS-25: Cannot go through when creating new channel in broadcasting studio feature test environment CLOSED				
2	25-October-2023	I found some glitch in adding output to TVStartup destination. The system will crash and go back to the login menu, this will happen when no channel has been selected.		Bug	TICKETS-26: In Broadcast Studio Feature test environment, The system will crash and go back to the login menu, this will happen when no channel has been selected. CLOSED				
3	25-October-2023	Banner display sometimes overlap on some important views in the video stream window. Need to be movable.		Bug/Enhancement	TICKETS-27: Banner window overlapping on some important views on the broadcasting studio feature. CLOSED				
4	25-October-2023	For the graphics side under selecting a brand color, cannot autofit to the window screen display, did not fit responsively.		Bug/Enhancement	TICKETS-28: Selecting brand color for the banner CLOSED				

5	25-Octorber-2023	For the ticker font style, can we add more font style on it? There are only two font styles added but when I select either one of them dejavu or freefont no changes happen on the ticker font style. To add more font style, I think it would be better so the user would have more choices.		Enhancement	TICKETS-29: Changing ticker message font style CLOSED				
6	25-October-2023	For adding logo design, In my understanding it should be integrated in the video stream. However when I clicked the show button the logo design was not displayed on the video stream. Since the logo design was not shown I cannot verify the quality of the design or if the logo opacity button works correctly. This goes the same error in adding overlay, video clips and background images.		Bug	TICKETS-36: Adding logo design, overlay, video clips and background images not work as expected. CLOSED				
7	25-October-2023	What is the purpose of the display name button in the graphics design feature?I guess the purpose of that is to let the user have an option if they wanted to display the banner name or not. Please correct me if I'm wrong because either I turned it on/off there's no changes happening.		Bug	TICKETS-39: Banner display button did not function as expected. CLOSED				
8	25-October-2023	As observed only font style has been added to the ticker style. Can we add font color on it? I think it would be better so the user can create a much catchier banner name on their video stream.		Enhancement					
9	25-October-2023	When I started to go broadcast live the layout works, but when I stop the broadcast live and I want the layout to go back to it's normal phase, it doesn't work. Also can these layouts		Bug/Enhancement	TICKETS-40: Broadcast Studio feature video stream layout did not normally work. RESOLVED				

		work even if the broadcast is not on live yet? So the user can select and prepare the best layout they want before it will go to live.							
10	25-October-2023	For input controls, I don't know how these buttons work because when I clicked on it nothing happened.		Bug	TICKETS-44: Video stream input controls are not working. CLOSED				
11	25-October-2023	Found issue in broadcasting live when I click the camera toggle button, the existing played video streaming screen window will be replaced by the camera window.		Bug	TICKETS-45: In broadcasting studio feature, when camera toggle clicked on the existing video stream window will be replaced by the camera window. RESOLVED				
12	25-October-2023	I tried to copy and open the shared link and it will redirect me to the login form and an error found on the login form “ERROR for site owner: Invalid domain for site key” which prevents the user from logging in.		Bug	TICKETS-46: Copied Shared link address has error in it's form. CLOSED				
13	25-October-2023	The layout images were suddenly hidden as the broadcasting studio window feature continuously opened for over an hour.		Bug	TICKETS-47: The layout images were suddenly hidden as the broadcasting studio window feature continuously opened for over an hour CLOSED				
14	26-October-2023	Can we add version number of this added CMS feature, so we can be able to trace easily if there are some circumstances that will arise in the future. Mainly this is for software change traceability purposes.		Enhancement
